

FUTURE WHEEL

Name:

Section:

Instructions:

- 1) Identify a critical environmental issue.
- 2) Place a *single-variable solution* in the center (black) circle.
- 3) Determine the *first-order consequences* of the single variable solution in the red circles.
- 4) Determine the *second-order consequences* from each of the related first-order consequences in the green circles.
- 5) Determine *third-order consequences* from each of the second-order consequences.
- 6) Add additional circles to the future wheel as necessary.
- 7) Your consequences must be logical, well-thought, and easily understood for full credit.
