THE AGRICULTURAL ALPHABET B IS FOR BARN!

AUTHOR: CRAIG BROWN
GENRE: REALISTIC FICTION

The heart of every working farm is its barn. It provides shelter for animals, storage for their feed, and a place to keep tools and machinery. When the barn on Jacob's farm burns down, Jacob's father knows he has to replace it -- and quickly.

In the Amish community a barn is built in a day. Early in the morning friends and neighbors gather to make and raise the frames of the barn, to roof it, and to add the siding. By evening a new building rises from the landscape. Once again the animals have shelter, their feed is stored, and the farm equipment is in place.

AGRICULTURAL CONNECTIONS: shelter, crops, livestock, jobs on the farm, farm pests, farm machines

ACTIVITY:

- Informational Slides that detail the origin of the barn and how it is utilized on the farm
- Read book
- Look at various pictures of barns
- Build barns using oatmeal canisters and construction paper or build barns using craft sticks
- Eat haystack snacks using chow mein noodles, peanut butter, and butterscotch chips

THE AGRICULTURAL ALPHABET D IS FOR DOGS!

AUTHOR: CAT URBIGKIT

GENRE: NON-FICTION

Like other livestock in the Rocky Mountains, sheep need protection from predators, such as coyotes and wolves. Guardian dogs help ranchers protect their flocks. But they are not the typical herding dogs, and they are not native to the region. The breeds were imported from Europe, where they have been guarding livestock for thousands of years. As puppies, they are placed in fleece and learn to identify with the smell of sheep. It isn't long before they meet their first sheep and mingle with the flock. With little training, the dogs instinctively know that their job is to keep a lookout for danger and now and then do some babysitting. Cat Urbigit's engaging photo-essay shows how guardian dogs form a bond with the sheep that lasts throughout the dogs' life.

AGRICULTURAL CONNECTIONS: Jobs on the farm, livestock, animal care

ACTIVITY:

- Informational Slides that detail the role of dogs on the farm, types of farm dogs, how they are cared for, and language used between the farmer and the farm dog.
- Read book
- Look at pictures of various types of dogs used on farms
- Have local community member bring in a farm dog for class to see and have visitor talk about the job responsibilities of the farm dog
- Divide class into two groups. Have children play relay game using a balloon to represent a livestock animal and a fly swatter to represent the dog. Children move the balloon with the fly swatter to a designated area.
- Write about experience and share with class
